

GUILLAUME ALLAIS

ORCID:  0000-0002-4091-657X

Livingstone Tower LT1317 ◇ G1 1XH, Glasgow ◇ United Kingdom

guillaume.allais@strath.ac.uk

APPOINTMENTS

University of Strathclyde

Chancellor's Fellow (Lecturer)

2023 – ongoing

Glasgow, United Kingdom

- Research (Safe and efficient representation of inductive types in Quantitative Type Theory [2, 3]; Compile-time partial evaluation via model constructions [1]; Sound and complete proof automation for algebraic theories [4])
- Teaching (Functional & Advanced functional programming, Logic gates and circuits)
- Knowledge exchange (Scottish PL summer school)

University of St Andrews

Research Fellow

2020 – 2023

St Andrews, United Kingdom

- Core developer of Idris 2, a bootstrapped research compiler for a dependently typed programming language
- Collaborator on Frex [9, 4], a proof automation framework
- Core developer of TypOS [6], a language of concurrent actors to build typecheckers

University of Strathclyde

Postdoctoral Researcher

2019

Glasgow, United Kingdom

- Core developer of Agda, a research compiler for a dependently typed programming language
- Core developer of Syrup, a home grown language to teach logic circuits to undergraduates

Radboud Universiteit

Postdoctoral Researcher

2016 – 2018

Nijmegen, The Netherlands

- Formalising in Agda a resource-aware type system based on linear logic [15]

EDUCATION

University of Strathclyde

PhD in Computer Science

2022

Glasgow, United Kingdom

- Generic programming and proving framework for syntaxes with binding [8]
- Core developer of Agda, a research compiler for a dependently typed programming language

Parisian Research Master in Computer Science (MPRI)

MSc in Computer Science

2011

Paris, France

- Type theory and interactive theorem proving
- Research internship with René Thiemann on certifying termination of term rewrite systems in Isabelle [19]

École Normale Supérieure de Lyon

BSc in Computer Science

2009

Lyon, France

- Research internship with Yves Bertot on real analysis in Coq [17]

TEACHING

Functional Programming, University of Strathclyde

Co-delivering lectures with Bob Atkey, designing and marking coursework and examinations

2024–ongoing

Computer Systems and Architecture, University of Strathclyde

Co-delivering lectures with Alasdair Lambert, core developer of the educational circuit-generation programming language used in the course

2024–ongoing

Advanced Functional Programming, University of Strathclyde 2023–ongoing
Co-delivering lectures with Dr Conor Mc Bride and Dr Fredrik Nordvall Forsberg, writing lecture notes, designing and marking coursework and examinations

Computer Systems and Architecture, University of Strathclyde 2019
Delivering lectures, designing and marking coursework and examinations

ORGANISATIONAL DUTIES

International Conference on Types for Proofs and Programs, University of Strathclyde 2025
Local co-organiser

Scottish Programming Languages and Verification Summer School, University of Strathclyde 2024
Lead organiser

MSPrior seminar, University of Strathclyde — *Organiser* 2023

PROGRAM COMMITTEE MEMBERSHIP

ICFP, International Conference on Functional Programming, 2025

TYPES, International Conference on Types for Proofs and Programs, 2025

PEPM, Workshop on Partial Evaluation and Program Manipulation 2025
Co-chair

TyDe, Workshop on Type-driven Development 2024

TFP, Trends in Functional Programming 2022

PEPM, Workshop on Partial Evaluation and Program Manipulation 2021

PEPM, Workshop on Partial Evaluation and Program Manipulation 2020

TyDe, Workshop on Type-driven Development 2018

REFEREEING

Journals	Journal of Functional Programming (2024, 2019)
Conferences	Certified Programming and Proofs (2025), Principles of Programming Languages (2023), European Symposium on Programming (2022), Computer Science Logic (2022), Mathematically Structured Functional Programming (2014), Foundations of Software Science and Computation Structures (2022, 2013)

PROFESSIONAL ACTIVITIES AND VISITS

Guest, IFIP Working Group 2.11 2024
University of Edinburgh (United Kingdom)

Invited Speaker, School “Formal Mathematics” 2024
Hausdorff Institute for Mathematics (Bonn, Germany)

Invited Lecturer, Scottish Programming Languages Summer School 2023
University of St Andrews (United Kingdom)

Invited Speaker, Workshop Compiler Coding Dojo 2019
Co-located with <Programming> (Genoa, Italy)

INVITED SEMINAR PRESENTATIONS

PLUG, University of Glasgow, UK 2023-II-08
Staging by Evaluation

RESEARCH SOFTWARE DEVELOPMENT

TypOS , Core Developer <i>An actor-based concurrent language for unification-based elaborators and typecheckers</i>	2021 – ongoing
Idris 2 , Core Developer <i>Bootstrapped compiler for Quantitative Type Theory</i>	2020 – ongoing
Agda Standard Library , Core Developer <i>Certified data structures, discrete mathematics proofs, and automated solvers for the Agda programming language</i>	2017 – ongoing
Agda , Core Developer <i>Compiler for Martin-Löf Type Theory</i>	2015 – ongoing
COQTAIL , Core Developer & Administrator <i>Real and complex analysis in Coq</i>	2010 – 2012
